

Turnkey Dual Frontier AI Workforce for Small Districts & Schools

A centralized institutional deployment providing every educator with commercial **OpenAI ChatGPT Business** & **Anthropic Claude Team** with 100% Zero-Training FERPA privacy and pre-class accuracy clearance.

1. STRATEGIC RATIONALE & PROBLEM SOLVED

The Crisis of Unmonitored Teacher AI
Educators lose 15+ hours weekly on lesson prep, grading, and IEP tracking. Without a district solution, staff use personal free AI accounts—exposing student names and records to model training data.

The Centralized Institutional Shield
RoboParaPro standardizes the entire building under an enterprise zero-training privacy umbrella with master IT administration, dynamic seat reassignments, and automated pre-class error checking.

2. DUAL FRONTIER AI ARCHITECTURE (BOTH LEADING MODELS BUNDLED)

OpenAI ChatGPT Business Tier

- **Models:** Commercial reasoning models (GPT-SOL, Terra & commercial suites)
- **Capabilities:** Fast math generation, rubric scoring, handwriting OCR
- **Privacy:** Commercial Zero-Training agreement (100% FERPA Safe)

Anthropic Claude Team Workspace

- **Models:** Sonnet-Opus 5 with 200,000-token context window
- **Capabilities:** Full curriculum standard mapping, complex 50-page IEPs
- **Collaboration:** Shared building-wide project workspaces & templates

3. INSTITUTIONAL PRICING & SMALL DISTRICT PACKAGING

PACKAGE TIER	SEAT SCOPE	MONTHLY / SEAT	ANNUAL INVESTMENT	SAVINGS VS. RETAIL AI
Department Pilot	25 Educator Seats	\$22.50 / mo	\$6,750.00 / yr	Save \$22,000 / yr (76% off)
Building-Wide Faculty Most Popular	50 Educator Seats	\$22.50 / mo	\$13,500.00 / yr	Save \$44,000 / yr (76% off)
Small District Core	100 Educator Seats	\$22.50 / mo	\$27,000.00 / yr	Save \$88,000 / yr (76% off)
District-Wide Enterprise	250 Educator Seats	\$20.00 / mo	\$60,000.00 / yr	Save \$227,500 / yr (79% off)

Cost Comparison vs. Separate Retail Accounts: Purchasing ChatGPT Business (\$25/mo) + Claude Team (\$25/mo) + Red Pen Verification (\$15/mo) + TextVey (\$50/mo) directly costs **\$115.00/user/mo (\$1,380/yr per teacher)**. RoboParaPro delivers all four components for only **\$22.50/user/mo (\$270/yr)**.

4. K-12 CLASSROOM SAFETY & PARAPROFESSIONAL TOOLS

Digital Red Pen Pre-Class Clearance

Every teacher receives 5 automated daily checks that cross-verify math problems, facts, and dates against verified databases to catch hallucinations before handouts are printed.

30-Second 3-Tier Differentiation

Converts any reading passage or state standard into Emerging (Level A), On-Level (Level B), and Advanced (Level C) student handouts with comprehension questions in 30 seconds.

5. 100% ALLOWABLE FEDERAL & STATE GRANT FUNDING STREAMS

GRANT FUNDING SOURCE	ALLOWABLE USE RATIONALE
Title I, Part A	Instructional acceleration, remedial support materials, and closing achievement gaps.
Title II, Part A	Educator capacity building, teacher retention, and AI professional efficacy tools.
Title IV, Part A	Well-rounded education, technology modernization, and digital classroom innovation.
IDEA / Section 504	Special education paraprofessional documentation and IEP milestone progress logging.
State At-Risk (Section 31a)	Differentiated learning materials for vulnerable and struggling student populations.

6. PROCUREMENT, VENDOR INFORMATION & AUTHORIZATION

Vendor Legal Name: Immense Careers Group Inc
DBA / Platform: RoboParaPro Educational Solutions
Invoicing Terms: Net 30 Direct Purchase Order / ACH

W-9 & Sole-Source Letter: Available Upon Request
District Proposal Portal:
roboparapro.com/proposals.html
Support & Invoicing: support@syprian.com

Institutional Purchase Order Authorization

Executing this authorization confirms the selected package lot for the 2026–2027 academic year under Net 30 invoicing terms.
